

## *WI Silt Sock*

### Specification Sheet

- Our silt sock is an alternative to silt fence and can be used as a sediment control solution, perimeter control device and for slope interruption.
- The photodegradable synthetic fabric has a life expectancy of 12-24 months, has an opening of 1/8", and is available in different diameters.
- The filler material is DNR 500 Wood Waste Landfill Reduction Effort certified. Making it weed free, seed free and disease free. The sizing of the material also promotes sediment reduction and water filtration.
